Joe

I just wanted to drop you a brief note and thank you for the hours of work spent helping QTI with a review of our Telecom services. Trish Howen, our CPA and whose shoulders this project fell on, said you went above and beyond the call of duty. Trish said you did an excellent job in educating us on long distance and local service charges, taxes and associated fees with our very numerous existing vendors. You helped consolidate our vendors and actually recommended your old company Norlight as a smaller more service oriented company for our long distance. And as it turned out, Norlight was actually the most cost effective alternative when all costs and fees were considered. And speaking of fees, there was no charge for your services.

We value our relationship with Transcendent and see you as true business partners. Thank you again for all of your assistance Joe.

Best Regards

Kathi Christian  
CFO and Director of Information Systems
