Dear Joe

Thank you for your expertise in identifying and terminating legacy network for Tecumseh. The four unused Verizon and AT&T circuits you found and disconnected saved Tecumseh over \$3,200.00 per month.

The network diagram you provided was a great visual. And getting a \$450.00 credit for an over-billing from One Communications was icing on the cake. Thanks again for cleaning this up for Tecumseh Power. You paid for your services in a very short period of time.

We look forward to hopefully using you in the future for vendor selection and implementation as we go forward with our new owners at Platinum Equity Group.

Regards

Chuck Lawton
